

REMARKS

Page 21 of the specification has been amended as in the parent case to replace a chinese character with the appropriate mathematical symbol. A minor grammatical change has been made on page 1. New claims 10-28 are submitted above, to provide claims for examination in this continuation case. The new claims include certain limitations relating to data conversion. The data conversion limitations find support in the disclosure starting on line 17 of page 25. Attention also is directed to step 103 in Fig. 8 and the exemplary conversion depicted in Fig. 6. Prompt, favorable consideration is solicited.

Respectfully submitted,

MCDERMOTT, WILL & EMERY
